## **How to Best Support Me:**

- \* Have an open mind/being open to try new things: I enjoy trial and error – finding out what works for me, you, or the situation.
- \* Use “teachable moments” and open communication – feel comfortable to talk to me about what is or isn't working and if it isn't openly communicate or teach me what could be done better/differently
- \* Allow me to process new things/information – I enjoy bouncing ideas or new information off of others and getting feedback
- \* I can be shy at first but usually warm up quickly, I find myself as an outgoing person after I've felt comfortable
- \* Attempt to be positive
