My background:

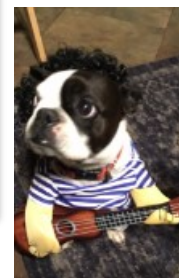

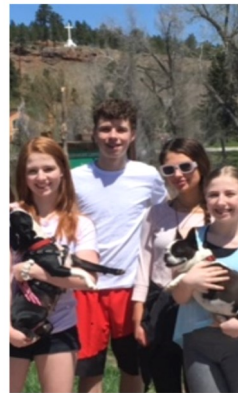

Thirty years ago I began working with people with disabilities and this has shaped my life in the most profound and beautiful way. Learning the importance of speaking out to help others at such a young age helped me to cultivate a life working for equal rights for all human beings: teaching dance to inner-city youth in Minneapolis; advocating for child safety and education; completing my Bachelor Degree from the University of South Dakota, emphasis in Humanities, Social Sciences, and Fine Arts; volunteering at Suzie Cappa Art Center in Rapid City teaching art classes. I have 15+ years teaching experience, teaching 3 year olds to adults, which has cultivated a passion in me for helping others. I am passionate about helping people and I believe wholeheartedly in the mission of RHD. As your Case Manager I will work hard to provide caring and effective services that empower people of all abilities to their highest level of independence.

I worked for the YMCA of Rapid City as a fitness instructor and love helping people find and reach their potential. My motto is a smile and a can do attitude will make every day better!
